- Problem Solving
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

INTERESTS

- Data analytics
- Statistics
- Problem Solving
- Software development

AYESHA SEWWANDI

IT UNDERGRADUATE AT SLIIT

PROFESSIONAL PROFILE

Second-year Information Technology undergraduate at SLIIT, pursuing a BSc (Hons) specializing in Information Technology. Passionate about problem-solving, critical thinking, and applying technical skills to real-world challenges. Skilled in programming and data handling, with a keen interest in IT solutions and software development. I am seeking an internship that will allow me to apply my knowledge, learn from industry experts, contribute to innovative projects, and further develop my expertise in IT and data analysis.

ACADEMIC PROJECTS

- **Online Medical Portal** [2024 July-2024 November]
Technologies and Tools: HTML, CSS, JavaScript, PHP, XAMPP
Developed a fully functional online medical portal as a group project with features including appointment scheduling, feedback management, user and inventory management. Implemented front-end design using HTML, CSS, and JavaScript for a user-friendly interface, while utilizing PHP and XAMPP for the back-end to handle dynamic data processing. Ensured seamless interaction between system components and optimized user experience across all modules.
- **Vehicle Rental System** [2025 February - 2024 May]
Technologies and Tools: Java, JSP/Servlet, MySQL
Developed a web application for vehicle rental management, incorporating full CRUD functionality. Designed modules for vehicle management, customer profiles, booking systems, and feedback collection. Focused on ensuring seamless data handling and user experience, while using JSP and Servlets for dynamic content management and MySQL for database integration.
- **Pet Care & Services System** [2025 July -2025 November]
Technologies and Tools: ReactJS, MongoDB, Express, Node.js, Postman
Collaborated in a 5-member team to develop a comprehensive Pet Care platform using the MERN stack. Built modules for appointment scheduling, grooming & spa bookings, product sales, and health clinic management. Implemented full CRUD operations for dynamic data handling and integrated PDF report generation. Used Postman for API testing to ensure smooth communication between the front-end and back-end. Applied MVC architecture and centralized database connection handling for scalable and efficient system design.
